

PageOneMarker: the first page of a multi-page corpus document.
The quick brown fox jumps over the lazy dog on page one.
Distinct words here let the finder and selection tests target them.

PageTwoMarker: the second page begins after a hard page break.
More content on the second page with numbers 12345 and symbols.

PageThreeMarker: the third and final page of the fixture.
Concluding paragraph so the last page also carries editable text.
